

Marine Oil Terminal Article 5.5 Changes

John Brown

California State Lands
Commission

Marine Facilities Division

March 31, 2007

brownjl@slc.ca.gov

Article 5.5 Changes

Changes to:

- References
- SLPT Notification Requirements
- SLPT Procedure Requirements
- SLPT Documentation Requirements

Article 5.5 Changes

Updated the Following References:

- Section 2561(o) - NACE Std RP0169
- Section 2563, 2565 – 49CFR195

Added the Following References:

- Section 2563 – Title 24, Chapter 31F, Div 9 and 10 (MOTEMS)
- Section 2564 – Pipelines w/o valid SLPT must conform to MOTEMS Div 9, 3109F.2 (12) and (13)

Article 5.5 Changes

SLPT Notification Requirement Changes:

● **Section 2564** – hydrocarbon test medium, notification must include:

- coefficient of thermal expansion
- liquid bulk modulus

Article 5.5 Changes

SLPT Procedure Changes:

🌐 **Section 2565** – Test medium temperature measured with a resolution of:

🌐 $\pm 0.1^{\circ}\text{F}$ (water test medium)

🌐 $\pm 0.01^{\circ}\text{F}$ (hydrocarbon test medium)

🌐 **Section 2565** – Record wind speed, precipitation, and cloud cover

Article 5.5 Changes

SLPT Procedure Changes (cont):

- 🌐 **Section 2565** – Pipe wall temperature probes firmly attached and insulated

Article 5.5 Changes

SLPT Documentation Change:

- 🌐 **Section 2567** – On routing map/diagram show location of pressure and temperature monitoring locations

Article 5.5 Changes
